

## Workman Box Mod - Chad Braun

Attached Images

Materials include:

8'- 1 1/2" x 2" x 1/8" tubing for stake pocket mounts

12'- 1 1/2" x 1/8" angle for the frame. (I used an old bed frame)

67"- 1/8" sheet steel, cut to 11" wide

4- 1/4" x 1" bolts and locknuts (these are optional, as the stake pockets hold it well)
